## INDEPENDENT AUDITORS' REPORT

To the Member  
Robotti & Company, LLC

We have audited the accompanying statement of financial condition of Robotti & Company, LLC (a limited liability company) (the "Company") as of December 31, 2011, that is filed pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall statement of financial condition presentation. We believe that our audit of the statement of financial condition provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of Robotti & Company, LLC as of December 31, 2011, in conformity with accounting principles generally accepted in the United States of America.

**NOTES TO STATEMENT OF FINANCIAL CONDITION**  
**DECEMBER 31, 2011**

**NOTE 1.     ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Organization

Robotti & Company, LLC (the "Company") is a broker-dealer registered with the Securities and Exchange Commission ("SEC") and is a member of the Financial Industry Regulatory Authority, Inc. ("FINRA"). The Company was formed on July 1, 2003, as a single-member limited liability company. The Company's sole member is Robotti & Company, Incorporated (the "Parent"). As a limited liability company, the member is not responsible for the debts of the Company unless they are specifically guaranteed.

The Company provides brokerage services to both institutional and individual investors. The Company is engaged in a single line of business as a securities broker-dealer, which comprises several classes of services, including principal and agency transactions.

Use of Estimates

The preparation of a statement of financial condition in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the statement of financial condition. Actual results could differ from those estimates.

Securities Transactions

Principal transactions are recorded on a trade-date basis.

Amounts receivable and payable for securities transactions that have not reached their contractual settlement date are recorded net in the statement of financial condition.

Marketable securities are stated at fair value as determined by quoted market prices.

Revenue Recognition

Commission revenues associated with transactions in securities are recorded on a trade-date basis.

Concentration of Credit Risk

The Company maintains its cash accounts at one commercial bank in amounts that at times may exceed the federal insurance limit. In addition, the Company maintains its securities and a significant portion of its cash at its clearing broker. These assets are subject to the credit risk of the clearing broker.

**ROBOTTI & COMPANY, LLC**  
**(A Limited Liability Company)**  
**NOTES TO STATEMENT OF FINANCIAL CONDITION**  
**DECEMBER 31, 2011**

**NOTE 1.     ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

Furniture and Equipment

Furniture and equipment are stated at cost. Depreciation is provided on a straight-line basis over the estimated useful lives of the assets, which is generally five years. For leasehold improvements, depreciation is provided over the terms of the related leases.

Income Taxes

The Company files income tax returns on a consolidated basis with its Parent (an S corporation). The Company is a single-member limited liability company that is treated as a disregarded entity for federal and state income tax purposes to the extent permitted by law. Therefore, the Company makes no provision for federal and state income taxes. The City of New York does not recognize S corporation status; therefore, a provision has been made for the Company's share of the consolidated City of New York corporate tax.

With few exceptions, the Parent and the Company are no longer subject to federal, state or local tax examinations by taxing authorities for years before 2008.

Cash and Cash Equivalents

Cash and cash equivalents consist primarily of cash on deposit at the Company's bank and clearing broker. Cash held at the Company's clearing broker includes funds in money market accounts that are readily convertible into cash.

Major Customers

During 2011, one of the Company's customers accounted for 33% of commission revenue.

Uncertain Tax Positions

The Company recognizes and measures its unrecognized tax benefits in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 740, *Income Taxes*. Under that guidance, the Company assesses the likelihood, based on their technical merit, that tax positions will be sustained upon examination based on the facts, circumstances and information available at the end of each period. The measurement of unrecognized tax benefits is adjusted when new information is available, or when an event occurs that requires a change.

Fair Value Measurements

The Company follows the guidance in FASB ASC 820, *Fair Value Measurements and Disclosures*. Using that guidance, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

**ROBOTTI & COMPANY, LLC**  
**(A Limited Liability Company)**  
**NOTES TO STATEMENT OF FINANCIAL CONDITION**  
**DECEMBER 31, 2011**

**NOTE 1.      ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

Fair Value Measurements (Continued)

Using the provisions within FASB ASC 820, the Company has characterized its investments in securities, based on the order of liquidity of the inputs used to value the investments, into a three-level fair value hierarchy. The fair value hierarchy gives the highest order of liquidity to quoted prices in active markets for identical assets or liabilities [Level 1], and the lowest order of liquidity to unobservable inputs [Level 3]. If the inputs used to measure the investments fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the investment.

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Company has the ability to access.

Level 2 inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Subsequent Events

The Company evaluates events occurring after the date of the statement of financial condition for potential recognition or disclosure in its statement of financial condition. The Company did not identify any material subsequent events requiring adjustment to or disclosure in its statement of financial condition.

**NOTE 2.      FURNITURE AND EQUIPMENT**

Furniture and equipment at December 31, 2011, consisted of the following:

Furniture and equipment	\$ 162,406
Less: accumulated depreciation	<u>(134,708)</u>
Furniture and equipment, net	<u>\$ 27,698</u>

**NOTE 3.      RELATED-PARTY TRANSACTIONS**

Insurance Services

Insurance brokerage services are provided by a company that is owned by a member of an officer's family. The Company paid approximately \$19,000 for the year ended December 31, 2011, in insurance premiums to non-affiliated third-party insurance companies for services brokered by this related party.

**ROBOTTI & COMPANY, LLC**  
**(A Limited Liability Company)**  
**NOTES TO STATEMENT OF FINANCIAL CONDITION**  
**DECEMBER 31, 2011**

**NOTE 3.     RELATED-PARTY TRANSACTIONS (CONTINUED)**

Commission Income

For the year ended December 31, 2011, the Company earned commission income totaling approximately \$880,000 from several entities related to the Company by common ownership and/or management.

Advances

Advances to or from Robotti & Company Advisors, LLC ("Advisors"), an affiliated company, or the Parent are non-interest bearing and have no specified repayment dates. Advances can be in the form of actual cash advances between these entities or the payment of expenses by one entity on behalf of the other.

Expense Sharing Arrangements

The Parent acts as the common paymaster for certain compensation and overhead costs incurred on behalf of the Company, the Parent, and Advisors (the Parent and Advisors are collectively referred to as the "Affiliates"). In addition, the Company acts as the common paymaster for certain noncompensation-related expenses incurred by itself and the Affiliates. Included in the aforementioned costs are amounts paid by the Company and the Parent for direct costs as well as costs that are subject to an allocation between the Company and the Affiliates (the "Allocated Costs"). Allocated Costs generally consist of salaries and related benefits paid for personnel, as well as other overhead costs. Allocations of shared employee compensation costs between the Company and the Affiliates are based on the estimated amount of time spent by employees on behalf of the Company and the Affiliates. The allocation of other overhead costs is based primarily on the estimated usage of such services by the Company and the Affiliates.

**NOTE 4.     CONTINGENCIES**

In the normal course of business, the Company may be a party to various litigation and regulatory matters. At December 31, 2011, various legal proceedings are pending against the Company. While the ultimate outcome of the proceedings cannot be predicted with certainty, management believes that the aggregate liability which may result from these proceedings will not be material to the Company's financial position or operating results.

**NOTE 5.     NET CAPITAL REQUIREMENTS**

The Company is subject to the SEC's Uniform Net Capital Rule ("SEC Rule 15c3-1"), which requires the maintenance of minimum net capital and that the ratio of aggregate indebtedness to net capital, both as defined, not exceed 15 to 1. Net capital and aggregate indebtedness change from day to day. At December 31, 2011, the Company had net capital of \$676,169, which exceeded the Company's minimum net capital requirement of \$100,000. The Company's percentage of aggregate indebtedness to net capital was 66.76% as of December 31, 2011.

**ROBOTTI & COMPANY, LLC**  
**(A Limited Liability Company)**  
**NOTES TO STATEMENT OF FINANCIAL CONDITION**  
**DECEMBER 31, 2011**

**NOTE 6. FINANCIAL INSTRUMENTS WITH OFF-BALANCE-SHEET CREDIT RISK**

As a securities broker-dealer, the Company is engaged in buying and selling securities for a diverse group of institutional and individual investors. The Company's transactions are collateralized and are executed with and on behalf of banks, brokers and dealers, and other financial institutions. The Company introduces these transactions for clearance to another broker-dealer on a fully disclosed basis.

The Company's exposure to credit risk associated with non-performance of customers in fulfilling their contractual obligations pursuant to securities transactions can be directly impacted by volatile trading markets, which may impair both the customers' ability to satisfy their obligations to the Company and the Company's ability to liquidate the collateral at an amount equal to the original contracted amount. The agreement between the Company and its clearing broker-dealer provides that the Company is obligated to assume any exposure related to nonperformance by its customers. The Company seeks to control the aforementioned risks by working with the clearing broker to require customers to maintain margin collateral in compliance with various regulatory requirements and the clearing broker-dealer's internal guidelines. The Company monitors its customer activity by reviewing information it receives from its clearing broker-dealer and by requiring customers to deposit additional collateral or reduce positions when necessary.

From time to time, the Company will hold positions of securities sold but not yet purchased; therefore, it will be obligated to purchase such securities at a future date. The Company has recorded these obligations in the statement of financial condition at December 31, 2011, at the fair values of the related securities and will incur a loss if the market value of the securities subsequently increases prior to the Company "closing" its position. The value of securities sold short is collateralized by marketable securities and cash held by the clearing broker when and to the extent such an obligation exists.

**NOTE 7. EMPLOYEE BENEFIT PLAN**

Pursuant to Section 408(p) of the Internal Revenue Code ("IRC"), the Parent has adopted a savings incentive match plan for employees (the "Plan"). Pursuant to the provisions of the Plan, the Parent has elected for 2011 to contribute an amount equal to 2% of wages of all employees earning at least \$5,000, up to a maximum of \$245,000. The Company's allocable share of such expense for the year ended December 31, 2011 totaled approximately \$33,000.

**ROBOTTI & COMPANY, LLC**  
**(A Limited Liability Company)**  
**NOTES TO STATEMENT OF FINANCIAL CONDITION**  
**DECEMBER 31, 2011**

**NOTE 8. FAIR VALUE MEASUREMENTS**

Assets and liabilities measured at fair value are based on one or more of three valuation techniques. The valuation techniques are as follows:

- (a) *Market approach.* Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities;
- (b) *Cost approach.* Amount that would be required to replace the service capacity of an asset (replacement cost); and
- (c) *Income approach.* Techniques to convert future amounts to a single present amount based on market expectations (including present value techniques, option-pricing and excess earnings models).

The following table presents the Company's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of December 31, 2011:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>	<u>Valuation Technique</u>
<b>Assets:</b>					
Money market funds included principally in cash held at clearing broker	\$ <u>251,953</u>	\$ <u>-</u>	\$ <u>-</u>	\$ <u>251,953</u>	(a)
Equity securities owned, at fair value	209,433	56,885	1,946	268,264	(a) (b)
Royalty investment	<u>-</u>	<u>-</u>	<u>4,320</u>	<u>4,320</u>	(b)
Total securities owned, at fair value	<u>209,433</u>	<u>56,885</u>	<u>6,266</u>	<u>272,584</u>	
Total	\$ <u>461,386</u>	\$ <u>56,885</u>	\$ <u>6,266</u>	\$ <u>524,537</u>	
<b>Liabilities:</b>					
Equity securities sold but not yet purchased, at fair value	\$ <u>26,841</u>	\$ <u>-</u>	\$ <u>-</u>	\$ <u>26,841</u>	(a)

Money market funds and equity securities, both long and short positions, are included in Level 1 as they are valued at quoted market prices. Level 2 equity securities are also valued at the latest quoted market prices but are treated as Level 2 due to their limited market activity. The Level 3 investments are valued using the cost basis technique to determine fair value.

During the year ended December 31, 2011, there were no transfers between levels of the fair value hierarchy.

The following table presents a reconciliation of beginning and ending balances of the fair value measurements using significant unobservable inputs (Level 3) for the year ended December 31, 2011:

Balance - beginning	\$ 4,320
Additions	<u>1,946</u>
Balance - ending	\$ <u>6,266</u>
